

Cannabis ? Edibles

What do they look like?

They look very similar to classic candy such as sour patch kids, gummy bears, gummy worms, nerds ropes, etc. but there will be slight differences from the original.

How can you tell if it's an edible?

- Many edibles will have a warning label on the packaging or possibly on the product itself. Also look for a small triangle with a **!** or 
- They will smell different than usual candy

What can you do as a parent or guardian?

Talk to your children about only eating candy or snacks with permission from a trusted adult

Talk to your family members and friends about safely storing their cannabis products

Do not store cannabis products with your other food items and keep them in the original packaging

Consider purchasing a lockbox!

If you think your child has ingested a Cannabis product

- Call the **Poison Center** at 1-800-222-1222 if your child is awake and alert.
- Call **911** if the child is showing signs of an emergency
